

FLOWER COLOUR MATCHING

MESS FACTOR
0/10

You will Need

- Cardboard
- Pipe Cleaners
- Pasta tubes
- Paint

The Benefits

Colour recognition is a key cognitive developmental step for young children, as it plays an important role in object recognition and is a vital part in helping children to develop their descriptive language

Such a fun educational activity for your Little Bug – combining colour matching with fine motor skills. So simple to make, with items you can find around your home!

APPROX ACTIVITY TIME
20
MINS

Step 1:

Cut a rectangle from a cardboard box – a sturdier cardboard is best!

Step 2:

Using paint, or markers, colour the pasta in corresponding colours to your pipe cleaners.

Step 3:

Once the painted pasta is dried, glue to the cardboard

Step 4:

Bend your pipe cleaners into flower shapes, try to ensure a reasonable “stem” to be threaded through the pasta

Step 5:

Add any decoration you may like!

Step 6:

Ask your Little Bug to match the flowers with the colours, and thread through! Allow them to explore, removing and re-threading the pipe cleaners
